Our company values

**We create the future.**

Creativity is in our DNA. We constantly look around the corner to see what is possible. But we don’t wait for the future, we create it.

We are builders, makers, and inventors, driven by a deep empathy for our customers and users.

We are open-minded and celebrate new ideas. We have the courage to disrupt the market and ourselves through bold bets and ideas we turn into reality.

**We own the outcome**

We think and operate like owners. We take initiative, have a bias toward action, and assume ownership for end results, not just our part.

We are reliable and have clear points of view. We’re decisive and learn from our mistakes.

**We raise the bar.**

We aim high and we play to win. We relentlessly focus on execution, celebrate excellence and are intellectually honest about where we must do better.

We deliver both speed and quality by doing fewer things better. Our success is measured by the success of our customers and users.

**We are genuine.**

The ability to be yourself is core to who we are. We embrace and respect diversity.

We support and challenge each other by being honest and direct. We always act with sincerity, integrity and the highest of ethics.

We do this for our employees, partners, customers and communities.
