

Include rich media

Use Acrobat X Pro software to create rich, interactive documents. Quickly insert multimedia—including audio, Flash Player-compatible video, and interactive media—and bring ideas to life. It's this easy:

1. With your PDF file open in Acrobat X, choose the Tools pane in the top, right corner of the application.
2. Open the Content panel, click the Multimedia button, and select Video.
3. Drag a marquee to indicate where you want the video to be placed.
4. Click the Browse button to locate your video file, and then click OK.
5. Click the Play button to watch it.
