

Adobe® FrameMaker® 10

Seamless connectivity with your Content Management System

Adobe FrameMaker 10

Try the full functionality of FrameMaker 10 (as a part of Adobe Technical Communication Suite 3.5 software) in minutes and without downloading the software. Tutorials are also included.

Test-drive it now at <http://www.runaware.com/clients/adobe/techsuite>

In the modern-day business world, content development is far more complex, distributed, and multicomponent than ever before. In such a scenario, it is important for a robust authoring and publishing tool to integrate with the enterprise Content Management System (CMS). Better integration and synergies between the content authoring and management engines will ensure better version control, more streamlined workflows and increased ease of component reusability.

Adobe FrameMaker 10 offers out-of-the-box connectors to EMC Documentum and Microsoft SharePoint at no additional cost. Several third party connectors are available in the market that help FrameMaker users connect with other CMS solutions as well. This allows users of these CMS solutions, to manage FrameMaker binary and XML source files, and graphics. It also allows efficient check-in, check out, and editing of complex, multicomponent documents.

	<h3>Microsoft Office SharePoint Server 2007, 2010</h3>
<p>CMS / CCMS: CMS</p>	
<p>Integrates with FrameMaker Version(s): 10</p>	
<p>Contact: Tom Aldous, Manager, Product Evangelism and Business Development - Technical Publishing +1-508-463-3405 taldous@adobe.com</p>	
<p>Mode of integration: Interacts with FrameMaker using a Front Page RPC and a Web Services interface provided by the Windows SharePoint Service(WSS) and Microsoft Office SharePoint Server(MOSS).</p>	
<p>For more information, please visit: Adobe Product Management Blog 1 Adobe Product Management Blog 2</p>	

	<h3>EMC Documentum Server 6.5, 6.7</h3>
<p>CMS / CCMS: CMS</p>	
<p>Integrates with FrameMaker Version(s): 10</p>	
<p>Contact: Tom Aldous, Manager, Product Evangelism and Business Development - Technical Publishing +1-508-463-3405 taldous@adobe.com</p>	
<p>Mode of integration: Leverages DFS (an SOA based interface) of EMC Documentum for interacting with the Documentum Content server.</p>	
<p>For more information, please visit: EMC Community Network</p>	

SDL Trisoft 2011R2

CMS / CCMS: CCMS

Integrates with FrameMaker Version(s): 10

Contact: Howard Schwartz, VP of Solutions | +1-408-838-5410 | hschwartz@sdl.com

Mode of integration:

Connects to the FrameMaker Server via a stateless Web Services connection to ensure seamless connectivity for robust support of DITA content. Users can checkout content, manage versions, apply metadata and workflows, create conref attributes, re-use images and search the SDL Trisoft repository.

Vasont® CMS, Vasont® SaaS CMS, Vasont® DITA CMS

CMS / CCMS: CCMS

Integrates with FrameMaker Version(s): 9, 10

Contact: Suzanne Mescan, VP Marketing | +1-717-793-3900 | smescan@vasont.com

Mode of integration:

Leverages the Vasont Universal Integrator (VUI) Extension to streamline the writing and publishing process with the help of an editorial interface. A simple Vasont menu item allows the user to open an intuitive navigator window and perform critical Vasont functions.

Bluestream Xdocs DITA-enabled CCMS 3.0

CMS / CCMS: CCMS

Integrates with FrameMaker Version(s): 7.2, 8, 9, 10

Contact: Nenad Furtula, VP Sales and Marketing | +1-604-724-4325 | nenadf@bluestream.com

Mode of integration:

Allows repository log on and browsing, file check-in/out and link management, directly through the FrameMaker authoring interface.

FCT TIM-RS 3.6

CMS / CCMS: CMS

Integrates with FrameMaker Version(s): 7, 8, 9, 10

Contact: Rainer Börsig, Head of Development | boersig@fct.de

Reference:

Mr. Jerome Leicht, Head of Technical Documentation, Bosch Tehrmotechnik
E-mail: Jerome.Leicht@de.bosch.com

Mode of integration:

Allows complete control on modules, graphics, documents, and books, and allows checking and updating of documents with the press of a menu key. There are well defined editorial processes to create, release, and translate content and documents. TIM-RS supports DITA, S1000D, Docbook, and FCT-Documents. Its highlights are variant management, working with master documents, automatic generation of lists, tables and overviews, and a high process automisation based on XML and FrameMaker.

SCHEMA ST4 2012

CMS / CCMS: CMS, CCMS

Integrates with FrameMaker Version(s): 9, 10

Contact: Stefan Freisler, Managing Director | +49 151 14 75 75 95 | stefan.freisler@schema.de

Mode of integration:

Provides three distinct kinds of connectors—

1. A customizable DLL for legacy documents which allows simple mapping of content to XML.
2. A FrameMaker integration for editing XML with functions to insert graphics, cross references, links, and reusable fragments, to create reusable fragments, to insert index entries and SCHEMA ST4 text variables, and to save and check in with automatic versioning.
3. A SchemaST4 FrameMaker publishing generator to automatically generate complete FrameMaker books.

Componize for Alfresco 1.4

CMS / CCMS: CCMS

Integrates with FrameMaker Version(s): 10

Contact: Valentine Ogier-Galland, Pre-Sales Engineer | +33 622 980 144 | valentine.ogiergalland@componize.com

Mode of integration:

Provides integration through the standard WebDav protocol.
