

Adobe® FrameMaker® 10

Adobe® FrameMaker® 10 software is a template-based authoring and publishing solution for unstructured, structured, and XML/DITA/S1000D content. Easily author and aggregate content with an enhanced user interface and standards-compliant tools and templates; quickly collaborate and review with out-of-the-box content management system (CMS) integration; and automatically schedule and publish via Adobe FrameMaker Server 10* software to multiple channels such as PDF, HTML, WebHelp, Adobe AIR®, Adobe FlashHelp®, ePub, JavaHelp, Eclipse Help, and Oracle Help.

Easily author

Work in a fully integrated authoring environment with a new, intuitive user interface to easily create unstructured, structured, and XML/DITA content. Use standards-compliant prebuilt tools and templates to create content faster and smarter. Powerful single-sourcing capability and automation through advanced scripting alleviate time-consuming, repetitive tasks, allowing you to focus on content quality. Use utility tools to define and edit element attributes, view and format text, and easily add rich multimedia and graphics to technical content.

Quickly review and manage

Save time by collaborating more effectively, improve productivity by performing quick peer reviews, and manage and repurpose existing content more efficiently thanks to out-of-the-box integration with Documentum and Microsoft SharePoint. Navigate and edit documents faster and smarter; take advantage of a wide range of features; and meet organizational requirements with easy, customizable information models or specialized DITA. With new book capabilities, you can seamlessly track changes across entire books, view comments from selected reviewers, use a new interface, incorporate XML files, and reference DITA maps.

Automatically publish to multiple channels from a single source

Take advantage of the advanced, high-volume publishing and automatic scheduling capabilities of Adobe FrameMaker Server 10* to schedule tasks for specified intervals of one-time, daily, weekly, or monthly publications. With a shareable publishing task configuration, you can reuse existing configurations for similar publishing tasks. Take your content to a wider audience by publishing to multiple formats from a single source document, output long documents and books in PDF, generate indexes, aggregate topic-based content faster, and publish composite PDF objects.

Version Comparison Chart:

Compelling reasons to switch or upgrade to Adobe FrameMaker 10

Product features	FrameMaker 7.X	FrameMaker 8	FrameMaker 9	FrameMaker 10
Authoring				
Unicode Support		●	●	●
