Consider Adobe Creative Suite 3 Master Collection

Adobe Creative Suite 3 Master Collection is a comprehensive creative environment featuring highly integrated, exceptionally productive tools for designing print, web, film, video, and mobile content—in one value-packed offering.

Adobe Creative Suite 3 Web Premium software is a complete solution for creating interactive websites, applications, user interfaces, presentations, mobile device content, and other digital experiences. Get everything you need to prototype your project, design assets, build web experiences, and efficiently maintain and update content.

Get the essential tools

Finally, all your favorite tools are in one solution. Design core assets and build your prototype with Adobe Photoshop® CS3 Extended, Adobe Illustrator® CS3, and Adobe Fireworks® CS3 software. Then bring your project to life with Adobe Dreamweaver® CS3 and Adobe Flash® CS3 Professional, the industry-leading web design and development tools. Use Adobe Acrobat® 8 Professional software to quickly share design ideas and collect feedback from colleagues and clients, and easily maintain the final project with Adobe Contribute® CS3. Creative Suite 3 Web Premium is everything you need, all in one place.

Discover intelligent integration

Return to your creative roots with intelligent integration that allows you to forget the tools and focus on the project. Import files directly from Illustrator CS3 to Flash CS3, or cut and paste files from Photoshop CS3 into Dreamweaver CS3. Take advantage of improved CSS workflow between Dreamweaver and Fireworks and improved rendering

compatibility between Dreamweaver and Contribute. Organize your assets with Adobe Bridge CS3, and coordinate your team with Adobe Version Cue CS3.

Enjoy the latest workflows

Never before have there been so many opportunities for designers and developers to refine their current skillset while expanding into exciting new techniques and technologies. Immerse yourself in online video creation with sophisticated web video tools. Follow best practices with new CSS tools. Explore the possibilities in mobile content authoring. Expand into development with the Spry framework for Ajax and new Flash ActionScript™ 3.0 language. With Creative Suite 3 Web Premium, the future is yours.

Top reasons to buy Adobe Creative Suite 3 Web Premium

Best of the best

Get the newest versions of the award-winning tools, integrated workflows, and valuable utilities used to prototype, design, develop, and maintain websites, applications, interactive experiences, and mobile device content.

Powerful integration

Fluidly move assets across Adobe Photoshop CS3 Extended, Illustrator CS3, Flash CS3 Professional, Dreamweaver CS3, and Fireworks CS3 software. Use Adobe Version Cue CS3, Adobe Bridge, and Adobe Stock Photos to manage assets. Prepare content for mobile devices with Adobe Device Central CS3.

Streaming and progressive FLV

Create and edit streaming and progressive FLV content for playback through the ubiquitous Adobe Flash Player. Comprehensive video creation and delivery tools include a standalone video encoder, alpha channel support, a high-quality video codec, embedded cue points, video import support, QuickTime import, closed-captioning, and more.

Engaging interactivity

Incorporate rich interactivity into your projects. Whether it's Ajax interactivity in web page elements, streaming interactive

broadcasts, or an interactive multiuser collaboration application, Creative Suite 3 Web Premium has everything you need to draft and deploy your interactive vision on the web.

Latest technologies and standards

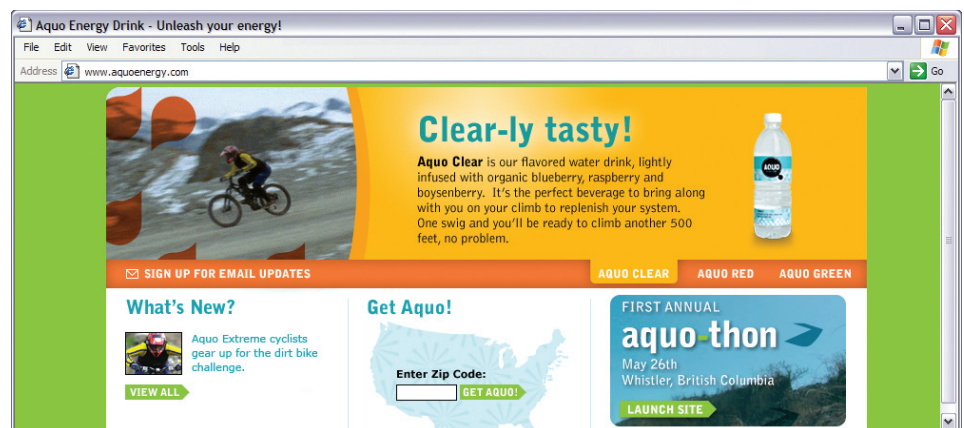

Keep pace with evolving technologies and standards. Design with HTML and CSS; integrate with development technologies like XHTML, XML, Adobe ColdFusion®, ASP, ASP.NET, JSP, and PHP; test content across browsers and operating systems; and prepare for the new Internet Protocol version 6 (IPv6).

ActionScript 3.0 development

Go farther with ActionScript 3.0, the high-performance, object-oriented programming language for Adobe Flash Player. Explore a whole new world of customization using the rich language, application programming interface (API), libraries, and expansive community support services.

Best practices

Easily apply best practices of web design and development. Create consistent CSS-based designs with CSS layout and visualization tools. Drag and drop an XML feed onto a web page. Use the industry's first integrated tool for Section 508 and WCAG Priority 2 checkpoints.

Prototype, design, develop, and maintain interactive websites, applications, and mobile device content.
